PROFESSIONAL SUMMARY

Motivated Computer Science and Data Science undergraduate with hands-on experience in full-stack web development using Java, Python, HTML, CSS, and JavaScript. Demonstrated ability to design and deliver user-centric web applications in healthcare and education domains. Strong analytical and problem-solving skills with experience collaborating on cross-functional teams to build technology-driven solutions for real-world challenges.

TECHNICAL SKILLS

Languages:	Python, Java, JavaScript
Frontend:	HTML5, CSS3, JavaScript, Responsive UI Design
Backend:	Java, Python (Flask/basic backend logic)
Databases:	MySQL, MongoDB
Tools & Platforms:	Windows OS, MS Excel
Concepts:	Full-Stack Development, Data Analytics, Machine Learning (basics), Role-Based Access Control
Soft Skills:	Communication, Teamwork, Initiative, Professionalism, Eagerness to Learn

PROJECTS

Health App Development | Academic Project | 2024 – 2025

- Designed and developed a full-stack healthcare web application to manage patient data, appointments, and health records.
- Implemented secure authentication and role-based access control (RBAC) for patients and healthcare providers.
- Built a responsive and accessible UI using HTML, CSS, and JavaScript; handled backend logic with Java/Python.
- Integrated MySQL/MongoDB for secure storage and retrieval of sensitive medical information.

AQI Forecasting & Visualization Dashboard | Academic Project | 2025 – 2026

- Built a real-time Air Quality Index (AQI) dashboard displaying location-based air quality data with interactive visualizations.
- Applied machine learning models to forecast future AQI values, helping users make informed outdoor activity decisions.
- Developed data pipeline integrating live API feeds, processed and visualized results using Python and JavaScript.

EDUCATION

B.Tech – Computer Science & Engineering (Data Science) | Rise Krishna Sai Prakasam Group of Institutions, Ongole | Nov 2022 – Apr 2026

Intermediate – MPC (Mathematics, Physics, Chemistry) | Sri Gowthami Junior College | Jun 2020 – Apr 2022

SSC | ZP High School | Jun 2019 – Apr 2020

ACHIEVEMENTS & ACTIVITIES

- Designed and delivered multiple full-stack web applications in healthcare and education domains through academic projects and internships.
- Completed hands-on internships gaining practical experience in web development and data analysis workflows.
- Consistently recognized for strong academic performance in core Computer Science and Data Science courses, with commendations for problem-solving and analytical skills during project evaluations.
